### **Project Title: Catherine the Great**

I want to tell the story of Catherine the Great by highlighting different eras of her life. Each era will be its own subpage. I plan to use a top nav that doubles as a time line. There is so much content about Catherine, she is ridiculously cool.

- Home Page – I want this to be a fairly concise page explaining in broad strokes who Catherine the Great is, and the historical misconceptions about her
- Early life – 1729-1760
- Coup & Rise to Power – 1761-1762
- Reign – 1793-1795
- Death & Legacy – 1796-Now
